GUTKA SEIZED Following Vigilance SP K Nageswara Rao's orders, officials raided five shops in Eluru, seized banned gutka and tobacco worth ₹8.69 lakh, booked GST cases and recommended criminal action against the shop owners

State sets Mar 11 deadline for BPS applications

EXPRESS NEWS SERVICE
@ Vijayawada

THE government has set March 11, 2026, as the last date to submit applications under the Building Penalisation Scheme (BPS-2025) for regularising unauthorised constructions in urban and semi-urban areas.

Notified by the MA&UD Department under G.O. Ms. No. 225, the scheme applies to buildings constructed between January 1, 1985, and August 31, 2025. It covers unauthorised buildings, plan deviations and residential-to-commercial conversions, subject to zoning norms, but excludes the APCRDA Capital City area. Applications can be filed through Licensed Technical Persons or BPS portal (bps.ap.gov.in) available.

RTGS survey reveals 45% people faced graft in Transport offices

48.14% say they paid extra money to RTA officials during the vehicle registration process

PHANINDRA PAPASANI
@ Vijayawada

THE Real-Time Governance Society (RTGS), which monitors public feedback on government services to improve administrative functioning, has flagged serious concerns over corruption in the Transport department across Andhra Pradesh, with Chief Minister N Chandrababu Naidu's home district, Chittoor, reportedly topping the list.

An RTGS survey conducted through random Interactive Voice Response System (IVRS) calls during December and January found that nearly 60 per cent of respondents in Chittoor reported facing corruption while availing Transport department services, including payment of taxes, obtaining permits, and securing vehicle fitness certificates.

At the State level, the survey indicated that corruption continues to persist in the department, with an average of 45 per cent of respondents across AP stating that they experienced corruption while dealing with Transport offices.

Despite these findings, the survey showed higher satisfaction levels, with 59 per cent of respondents expressing satisfaction with the overall services delivered by the Transport department, while 41 per cent said they were dissatisfied.

RTGS conducted the survey through 12,580 IVRS calls over the two-month period. Of these, 9,457 calls were connected, and 1,867 citizens provided feedback, which formed the basis of the findings.

Further, 48.14 per cent of respondents said Transport officials collected extra money during vehicle registration processes. However, respondents gave positive feedback on digital services, with 66 per cent expressing satisfaction with services provided through the VAHAN portal.

The findings present a contrasting picture, indicating that while digital platforms have improved service delivery, corruption at the field level continues to be a concern, contradicting the government's claims of corruption-free governance.

According to sources, the absence of regulatory control over private operators running 18 automated driving testing centres and nine automated vehicle fitness testing centres has contributed to public complaints. "There is no regulatory body to monitor their activities, and that's the reason behind the complaints of corruption," said a senior official.

New CSIR-NIO lab comes up in Vizag

USHA PERI @ Visakhapatnam

CSIR-National Institute of Oceanography inaugurated its shore-based laboratory in Visakhapatnam on Friday. Jitendra Singh, Union Minister of Science & Technology and Earth Sciences, inaugurated the facility located in Yendada.

CSIR-NIO has acquired 4 acres of land from the Andhra Pradesh government to develop the regional facility. The laboratory complex, which has a built-up area of approximately 4,000 sq. m, will focus on oceanographic research in the Bay of Bengal to assess living and non-living marine resources and to support coastal and offshore industries along India's east coast.

The regional centre's mandate includes systematic marine geological and geophysical surveys of the eastern continental margin of India (ECMI). Activities will cover bathymetric mapping, analysis of the tectonic framework and identification of areas with resource potential, including prospects for hydrocarbons.

The centre notes that the large sediment load delivered by Himalayan rivers to the northern Bay of Bengal contributes to the region's resource dynamics.

The Centre has provided technical support to industry stakeholders such as ONGC, Reliance Industries, GAIL and Oil India in establishing pipeline infrastructure and addressing marine environment challenges along east coast. It has worked with sectors including pharmaceuticals, steel, ports and thermal power to address marine and coastal requirements. The centre is designated to assist in demarcating coastal zone regulations.

Researchers at the regional centre have been involved in applied and basic science projects relevant to the fisheries and coastal communities.

The regional centre will contribute to national policy and decision-making on coastal regulatory matters, disaster management, climate-change adaptation, marine resource exploration and environmental protection. It will participate in national oceanographic programmes. Capacity building and training of young scientists and skilled professionals are listed among the top priorities as India expands its marine science and technology activities along the east coast.

Community role vital for effective disaster response: APSDMA MD

EXPRESS NEWS SERVICE
@ Vijayawada

PRAKHAR Jain, Managing Director (MD) of the Andhra Pradesh State Disaster Management Authority (APSDMA) said, "Effective disaster response measures are key to reducing risks, and communities must play a central role alongside individuals."

Addressing a two-day workshop on Risk Communication and Community Engagement for Disaster Risk Reduction at DV Manor Hotel, Jain emphasised that the authority's key goal is to minimise loss of life and property across the State. He assured that by the end of this year, disaster-related damages would be significantly reduced through improved planning and execution.

Jain explained that frequent cyclones and floods in AP demand a robust communication framework at the State, district, and mandal levels. He stressed that this initiative was not the end but beginning of a greater effort, with training and awareness programmes to be extended from district levels down to village and ward secretariats.
