i.	Guideline rate as obtained from the Registrar's office (evidence thereof to be enclosed)	:	**Through IGRS Net Extract obtained and the same is enclosed herewith 4,500/- per Sq. Yds**
ii.	Value of the land by adopting GLR	:	**533.33 Sq. Yds X 4,500 = 23,99,985/-**
5.	Value by adopting PMR (Prevailing Market Rate)	:	**Based on field enquires made in the vicinity. Considering the market fluctuations, land use and extent of site area, the prevailing Market Rate is varying from Rs. to per Ac. Which includes parallel economy component also. Latest transactions with respect to adjacent properties are not available. The site is located in between Agricultural lands, it's an un approved lay out, no clear demarcation was done yet.**
	Prevailing market rate (Along with details/reference of atleast two / transactions with respect to adjacent properties in the areas)		Since the valuation is being carried out for the purpose of an auction sale, the prevailing market rates are likely to be adversely impacted. The realizable value is further contingent upon the number of interested bidders participating and the strategic synergy of the subject property with prospective bidders. Consequently, the marketability of the subject property is expected to be limited and time-consuming, particularly as the property has already been put to auction. The previous auction was unsuccessful due to non-participation of bidders, despite the reserve price being set lower than both the prevailing market rate and the Guideline Value as stated above. In light of these circumstances, the valuation has been undertaken on a slump sale basis.
iii.	Unit rate adopted in this valuation after considering the characteristics of the subject plot	:	**Rs. 5,800/-**
	Value of land by adopting PMR	:	**533.33 Sq. Yds X 5,800 = 30,93,314**
